Close relative 2:					

A direct pecuniary interest is where you personally may benefit from the consequences of a decision. Example: a decision to pay you compensation for damage done to your car whilst parked on school property. If a relative of yours, including a spouse or someone living with you, could benefit directly or indirectly from a decision, and you are aware of this. You should treat that person as if they were you. 'Benefit' is intended to mean any benefit, even if, for example, a contract was concluded on very favourable terms for the school.

An indirect pecuniary interest is where your employer, or partner in a partnership, or a company in which you have shares, or a body of which you are a trustee or director or member, such as a club, or charity; may benefit from the consequence of the decision. Example: The school agrees to let a football pitch to a club of which you are a member.

A non-pecuniary interest is where any interest held is not financial but may include other benefits such as the enjoyment of a benefit, resource, status or service.

I certify that I have declared all beneficial interests which I or any person closely connected with me have with businesses or other organisations which may have dealings with the school
