Collecting student information

Whilst the majority of pupil information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the General Data Protection Regulation, we will inform you whether you are required to provide certain pupil information to us, or if you have a choice in this.

Parents/carers are the most significant source of information relating to students. Our obligation to maintain the accuracy of personal data can only be met with your help. Please, as soon as possible, inform the school of any changes in address, telephone number, email address (if you have provided this) or other changes that affect either our

ability to contact you or other family members you have designated as contacts or our ability to maintain our duty of care (e.g. medical conditions).

Storing student data

We hold student data for the student's date of birth plus 25 years as required by the legislation listed above. Limited student or carer data used for complimentary systems and services is removed when the student or carer no longer requires or makes use of that service or at the point that the student leaves the school.

Who do we share student information with?

We routinely share student information with:

- Schools that the students attend after leaving us
- Our local authority
- The Department for Education (DfE)

Youth support services

What is different about students aged 13+?

Once our students reach the age of 13, we also pass student information to our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services (overleaf):

- Youth support services
- Careers advisers

A parent/guardian can request that only their child's name, address and date of birth is passed to their local authority or provider of youth support services by informing us. This right is transferred to the child/student once he/she reaches the age of 16.

Our students aged 16+

We will also share certain information about students aged 16+ with our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13 to 19-year olds under section 507B of the Education Act 1996. This enables them to provide services as follows:

- Post-16 education and training providers
- Youth support services
- Careers advisers

The National Pupil Database (NPD)

The NPD is owned and managed by the Department for Education and contains information about students in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our students to the DfE as part of statutory data collections such as the school census and early years census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the student information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>

- Who is requesting the data
- The purpose for which it is required
- The level and sensitivity of data requested and
- The arrangements in place to store and handle the data

To be granted access to student information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
