

CELEBRATION ASSEMBLY

FRIDAY 5TH
FEBRUARY

The children in Year 2 have been learning how to measure rainfall. They have made and set up their own rain gauges and recorded the amount of rainfall for one week.

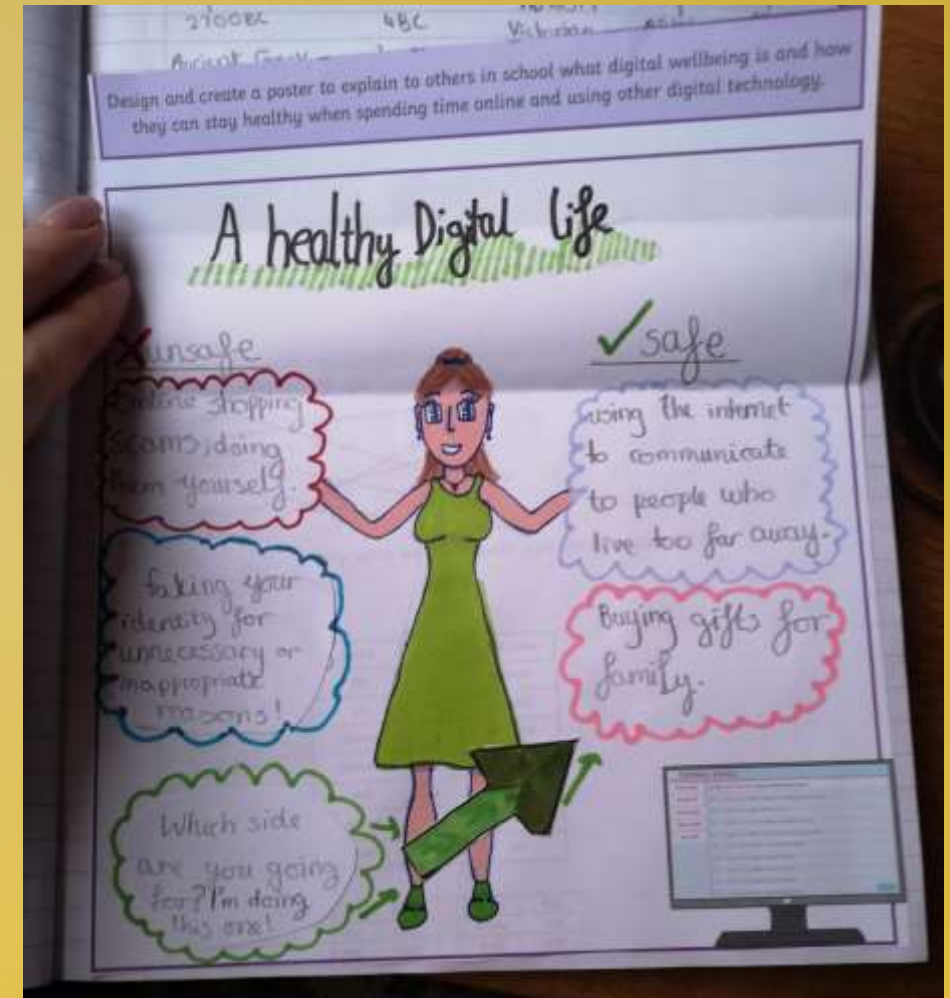

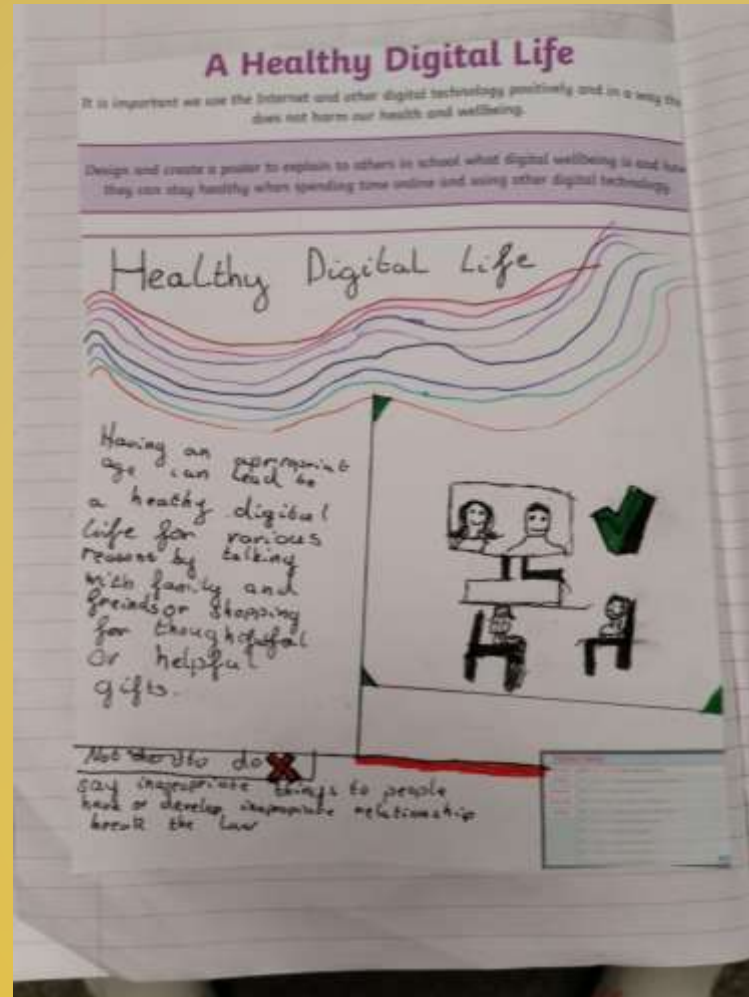

Look who is celebrating his birthday last Friday! Happy 6th birthday Alexander! Everyone at Peckover hopes you have a wonderful day! Mum told us he has got a Fitbit for his birthday and is running around the house to get his step count up! Go Alexander!

As we're spending so much time at home relying on technology, Year 6 have been learning about their digital wellbeing.

The children were asked to create posters that give people information on how to be healthy online.

Austeja, Ugne, Vytaute, Neida and William have created great posters with some great tips to having a healthy digital life!

A Healthy Digital Life

Being online with your friends is fun but you sometimes forget about your family. We all know we live in a world with our friends but family is more important. They care about you. They love you.

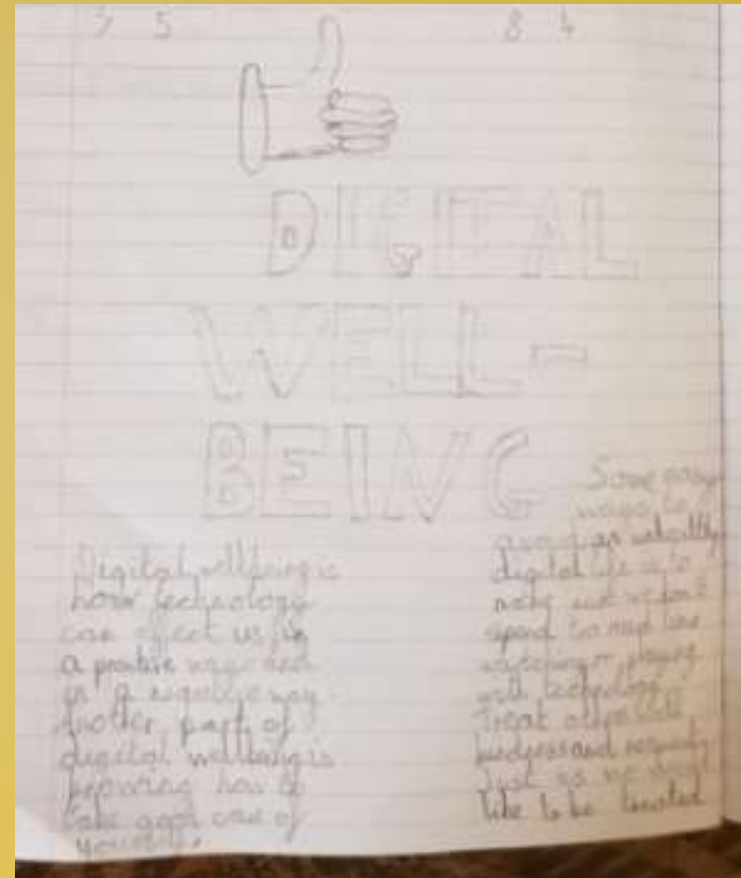

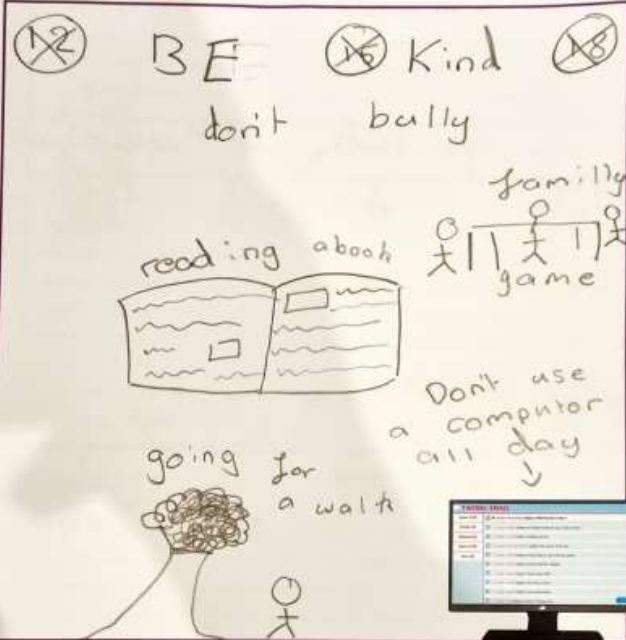

You also never know who is on the internet. If you have an big cyber net life, you could be so far away. Attending to be an if you are also you need to be this first of all you could damage your eyes.

A Healthy Digital Life

It is important we use the Internet and other digital technology positively and in a way that does not harm our health and wellbeing.

Design and create a poster to explain to others in school what digital wellbeing is and how they can stay healthy when spending time online and using other digital technology.

Maya has been busy at home doing some baking. She's made a triple layered berry cheesecake and it looks DELICIOUS!!

And here
is the
finished
product!
Where's
my slice?

After a really busy day of home learning, Maya has found the time to help out Mum and Dad by doing some tidying up. She has loaded the dishwasher and done the washing up.. just look at the before and after pictures!!

Aarya and her mum
have made scary
Gruffalo with Play Doh.
They couldn't wait to
share their finished
product with everyone!

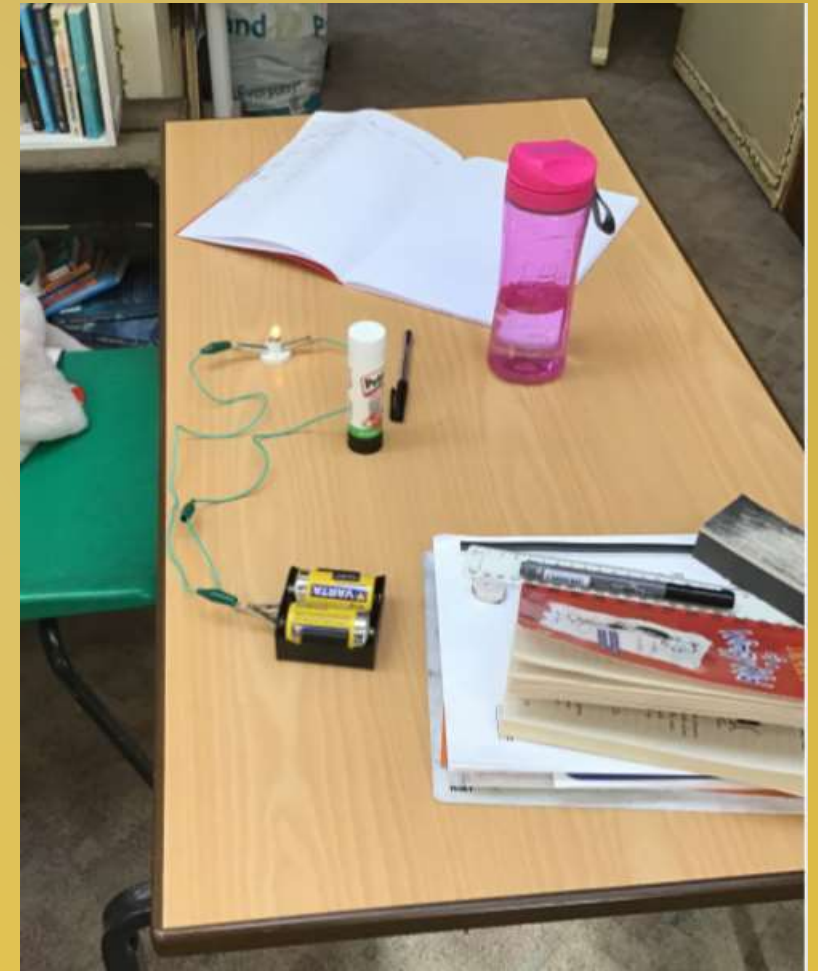

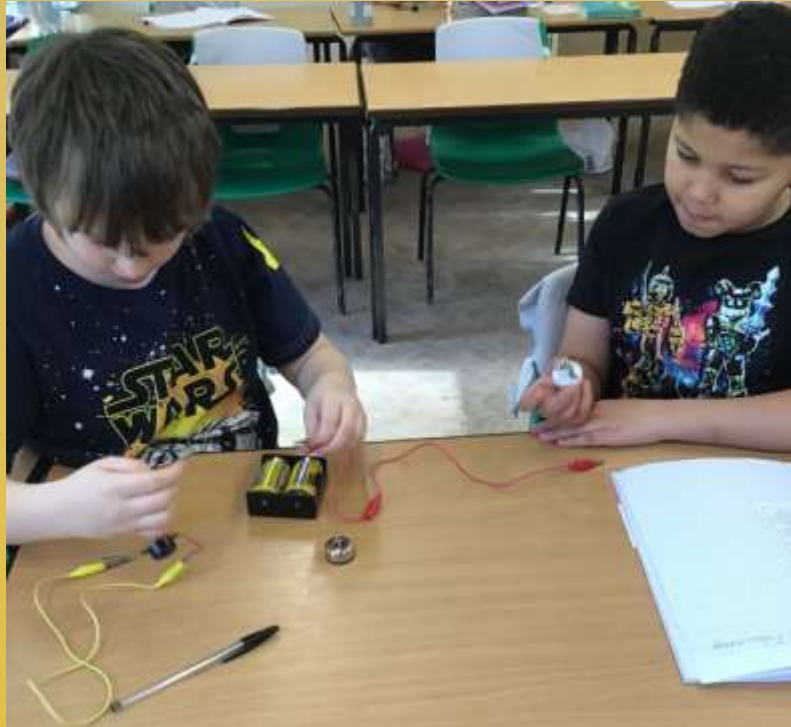

Ethan in Year 5 has been working hard to remind us all how to keep safe when out and about near the roads. Great advice Ethan!

As part of our Year 4 RE about Hinduism, we looked at Festivals this week. The question asked was 'Do Hindus celebrate Christmas? No, but they celebrate many other special days including Diwali, the festival of light. The children at home were asked to make or draw a tealight holder.

On Monday, in year 4 we were building electrical circuits. We all managed to light a bulb and get a buzzer to work. The switches were a little tricky.

On Monday, Rainbow went on a walk to collect items for our nature freeze cups. We can't wait to find out what happens to them tomorrow!

Here are our finished products...We were very impressed to look at the frozen nature! We measured the time taken for the cups to melt...3 hours, 14 minutes!

Here is some Geography work by Ethan Britain (Kingfishers).

He created a poster on human and physical geographical features for England, and used specific examples of these features in England, and drew amazing pictures. He used great vocabulary too, such as 'iconic'.

Mrs Driver shared a very exciting message with everyone this week. Can you guess what she told everyone?

In June, she is having a baby! Mrs Driver challenged the children to find something in their home that weighed the same amount as the baby does at the moment, 430g. There were some interesting answers: 23 strawberries, 6 large eggs, a mug full of water and a box of chocolates!

Geography

Monday 12/2/2021

1. Write down the names of the seven continents.

1. North America

2. South America

3. Europe

4. Africa

5. Antarctica

6. Asia

7. Australia

2. What is the imaginary circle around the Earth?

equator

3. Name 2 continents in the Northern hemisphere.

North America

Europe

4. Name 2 continents in the Southern hemisphere.

Australia

Antarctica

5. Which continents are in both hemispheres?

Africa

South America

6. Write from smallest to largest.

1. Village

2. Town

3. City

4. county

5. country

6. continent

7. world

7. What is the largest continent?

Asia

What is the smallest continent?

Australia

Sasha in Purple class has been really interested learning about the continents. She has used her own atlas at home while joining in the Oak Academy lessons. Geography is her favourite lesson. She has also been learning about staying safe online and has written some great advice.

Internet safety:

Friday 22/1

1. people I don't know are strangers.

2. Never tell anyone where I live or go to school.

3. If I have bad feelings I will tell adult I trust like parent or teacher.

Demi-Morgan, Leighton and Mason from Year 6 proudly showing off their home learning awards from last week. Well done to everyone who has received one of these. You truly deserve them!

Lots of cookery has been taking place in homes this week and it all looks delicious!

Looks like Edvard in Year 6 has been very busy this week, taking care of some very special new arrivals in his home!

This week, in Year 2, one of the home learning tasks was to create a musical pattern. Here is Freya stamping her feet during the music lesson. We like the pattern Greta has created. Emilian has drawn a beautiful picture telling how much he misses his school. We miss you too!

Issy from Year 6 has been very busy making a lighthouse. Very impressive Issy! I wonder if you could make a circuit to light up the light?

Jacob in Year 1 has been perfecting his cycling skills in lockdown!
Great work Jacob!

**Don't forget
to follow
Ethan's
advice on
road safety!**

Evelina in Year 6 and her sister have had a go at one of the tasks from our weekly video, they have made their own bird feeders. I bet the birds were very grateful in this freezing cold weather!

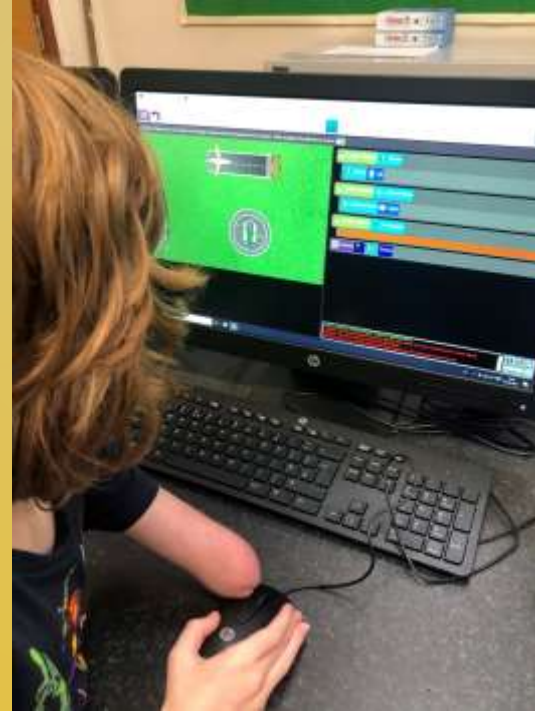

Not only is she a superstar at completing all of her home learning every day, but Amanda, in Year 3, has also taken part in a virtual P.E lesson with Joe Wicks as well!

This week the Year 2 bubble have been learning about coding. They were making their own airports and programming planes taking off in and others to stop before they crash. It has been lots of fun learning about the different commands and how to fix it when an error occurs.

This week we have been reading Big Game Adventure and Zak, from Year 3, loved the story so much that he recreated his own scene from the story. Can you guess what scene his settings shows?

This week in Rainbow we've been learning about The Gingerbread Man story. Today we had great fun decorating and eating our own Gingerbread Men. We've also spent lots of time getting creative outside with our monster tunnels and campfires!

This week, Year 5 were challenged to create their own obstacle course for PE. The children could set it up in their garden or inside the house. Here you can see children enjoying completing circuit in the garden or at the park or in the woods. Well done Sammy, Phoebe and Raigardas!
