

# CELEBRATION ASSEMBLY

FRIDAY 12<sup>TH</sup>  
FEBRUARY

---

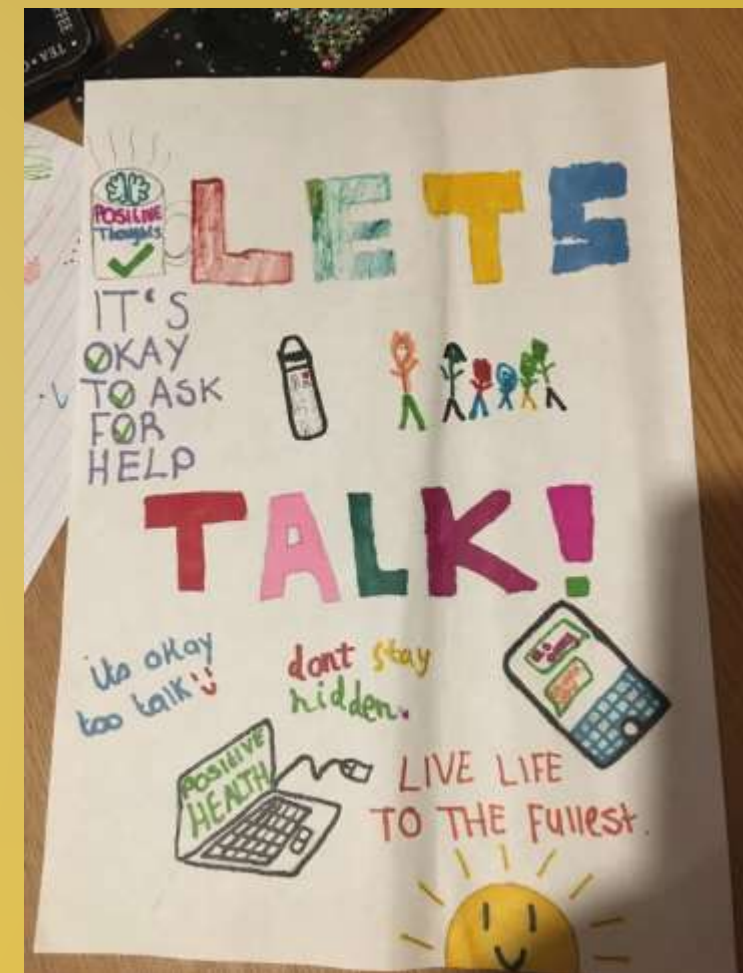

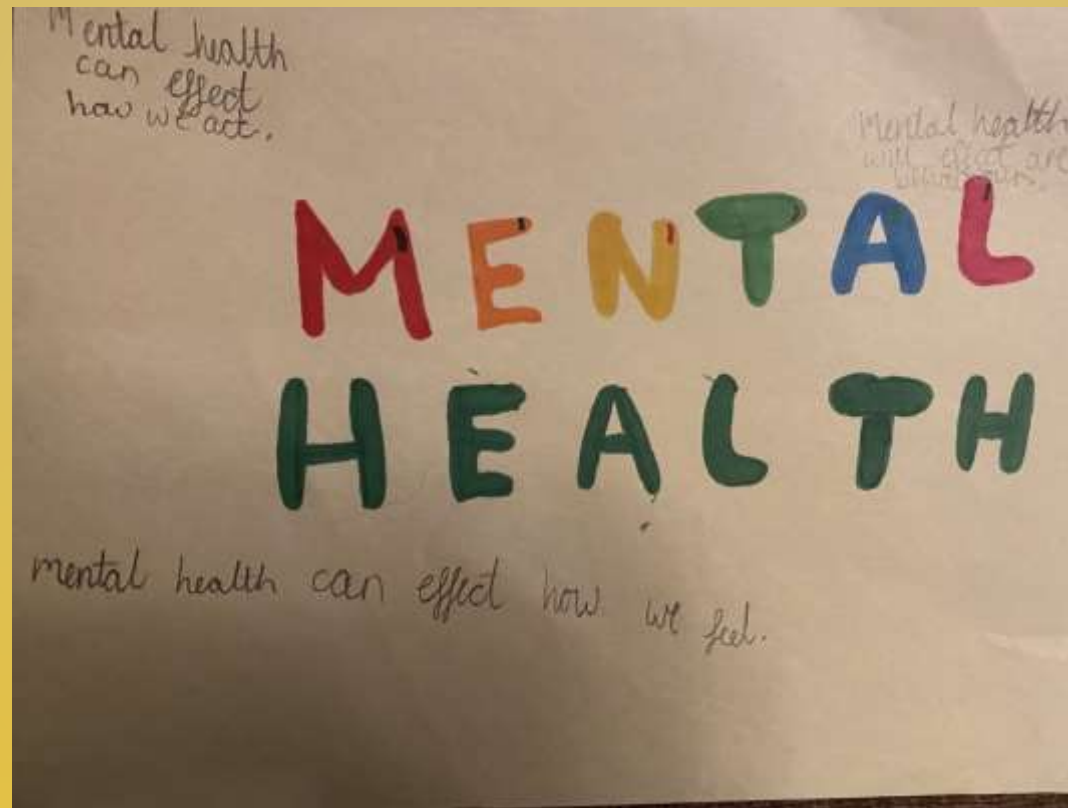

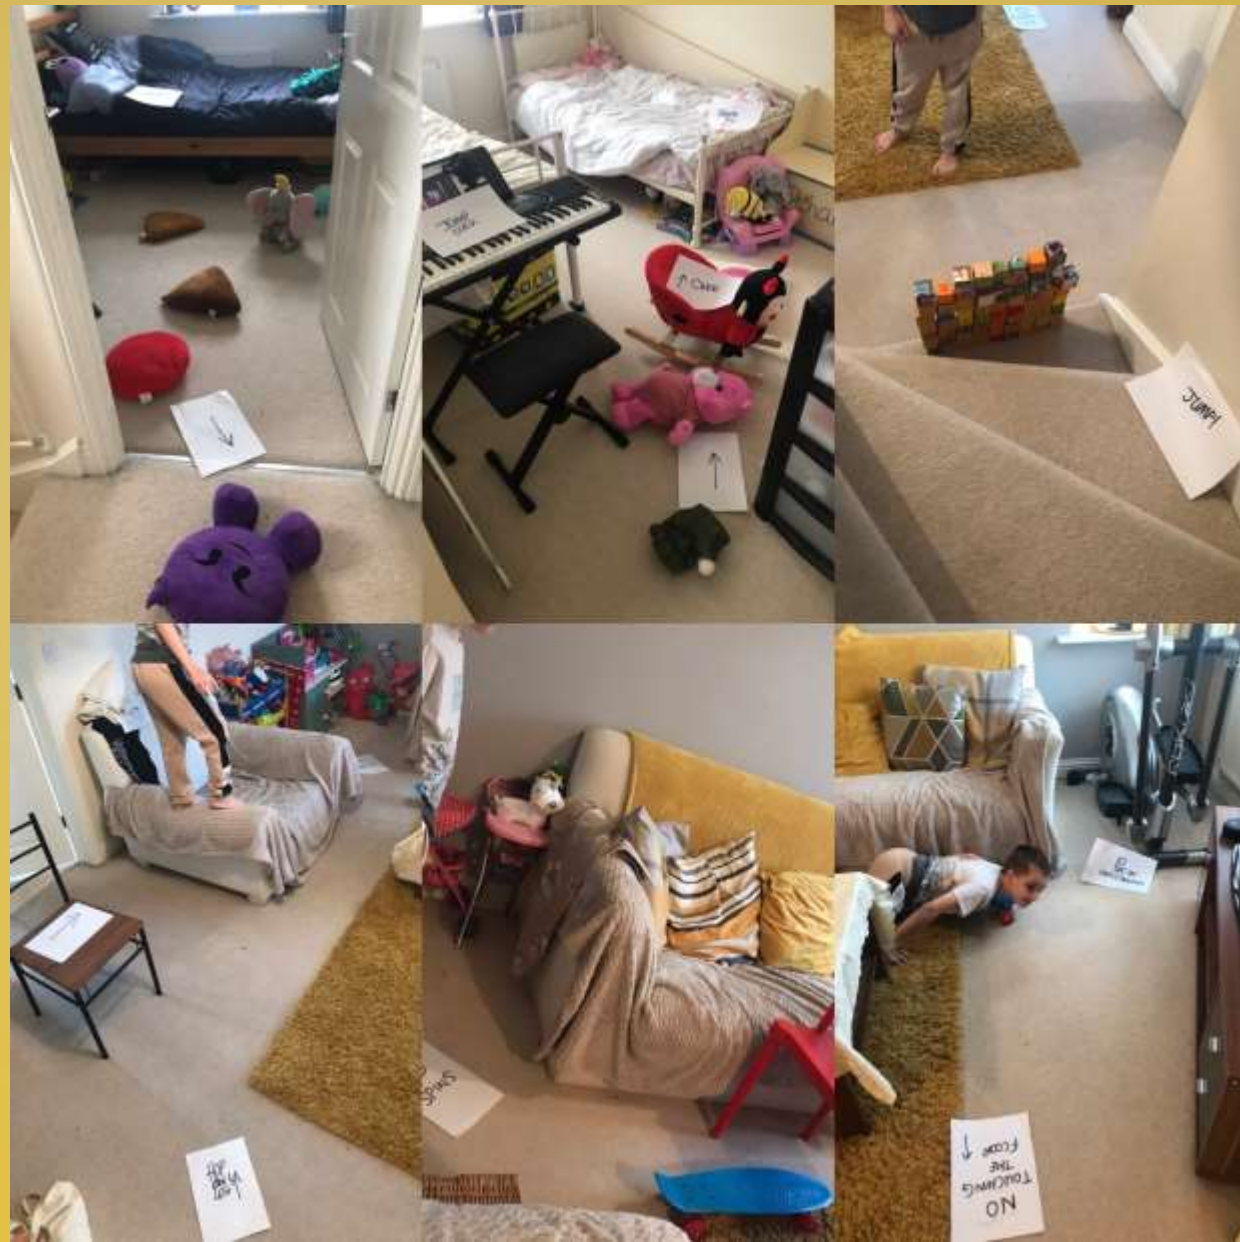

- 
- This week, Year 1 have been carrying out lots of experiments in science, and the children were asked to draw themselves as scientists. Look at all the amazing scientists we have!

Home learners from Year 4 were thinking about Children's mental health this week. Lily spent time outside, Maxwell and Lillie S produced wonderful posters.

Ethan from Year 5 certainly rose to the challenge of making his own obstacle course last week! It went round the whole house! Well done Ethan!

Max in Purple class has been so inspired by a book that he has read called The Rainbow Machine, he has produced his own spectacular rainbow. We are very impressed with his design.

The children in Year 2 have also been learning about the different continents and which animals live there. Connie has been learning about Asia and she has drawn a fantastic

Aleksandra (M) has been learning about Australia and her koala bear looks amazing.  
Our artists in Year 2 should be very proud of their work.

Andreja from Year 3  
is very proud of her  
bridge  
construction...and so  
are we!

Miguel from Year 2  
has been making us  
all feel incredibly  
hungry! He has  
prepared this very  
tasty looking pizza  
and we think you look  
awesome in your hat  
and apron Miguel!

Arthur from Purple class has created some amazing abstract art. We like the combination of colours, shapes and patterns.

Milda from Year 2 has been learning all about Australia. She has drawn some super animals and she has used her own reference book at home to research further.

Year 4 - Electricity, Home learners had to find items at home that are either conductors or insulators. Maximillian created a 'table' to show his results! Get it? He created a 'table?'

Rainbow bubble loved the snow on Monday. They even slid down the hill!

Oscar and Oliver's Mum from Year 4 sent us a lovely message telling us that the boys had won a competition. The competition took place in Polish library called "Show what you read..." and they won some great books! How wonderful! Well done Oscar and Oliver!

Harry from Year 2 has created some amazing African art. He has also painted a beautiful village in Liberia.

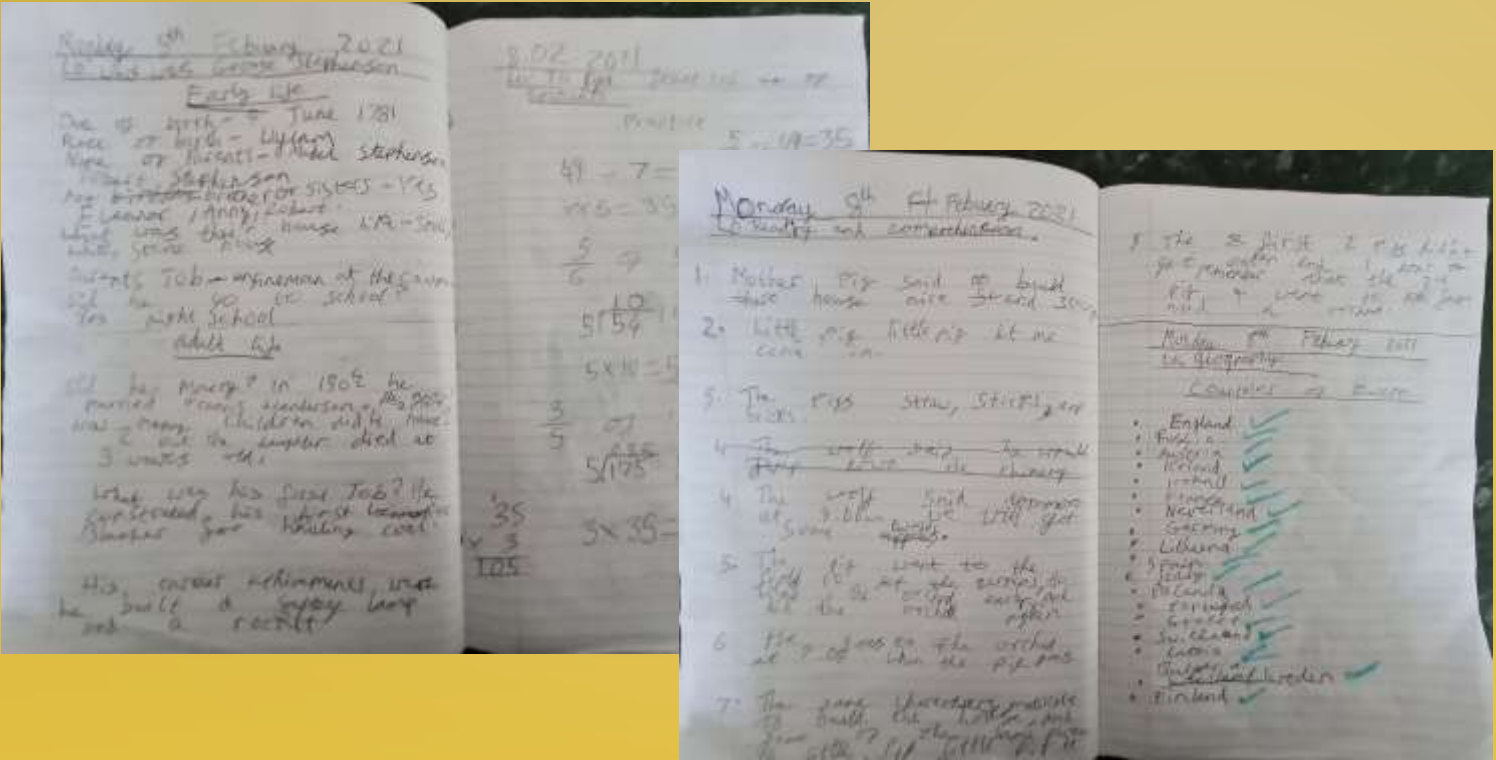

Lovely to see Milda and Harry from Year 2 involving the whole family in home learning and exercise! Milda's dog enjoyed a spot of cosmic yoga.  
Harry's dog looks desperate to try out the trampoline!

Great to see that Phoebe from Year 5 is working hard and then making sure she gets time to go out and enjoy the snow! Well done Phoebe!

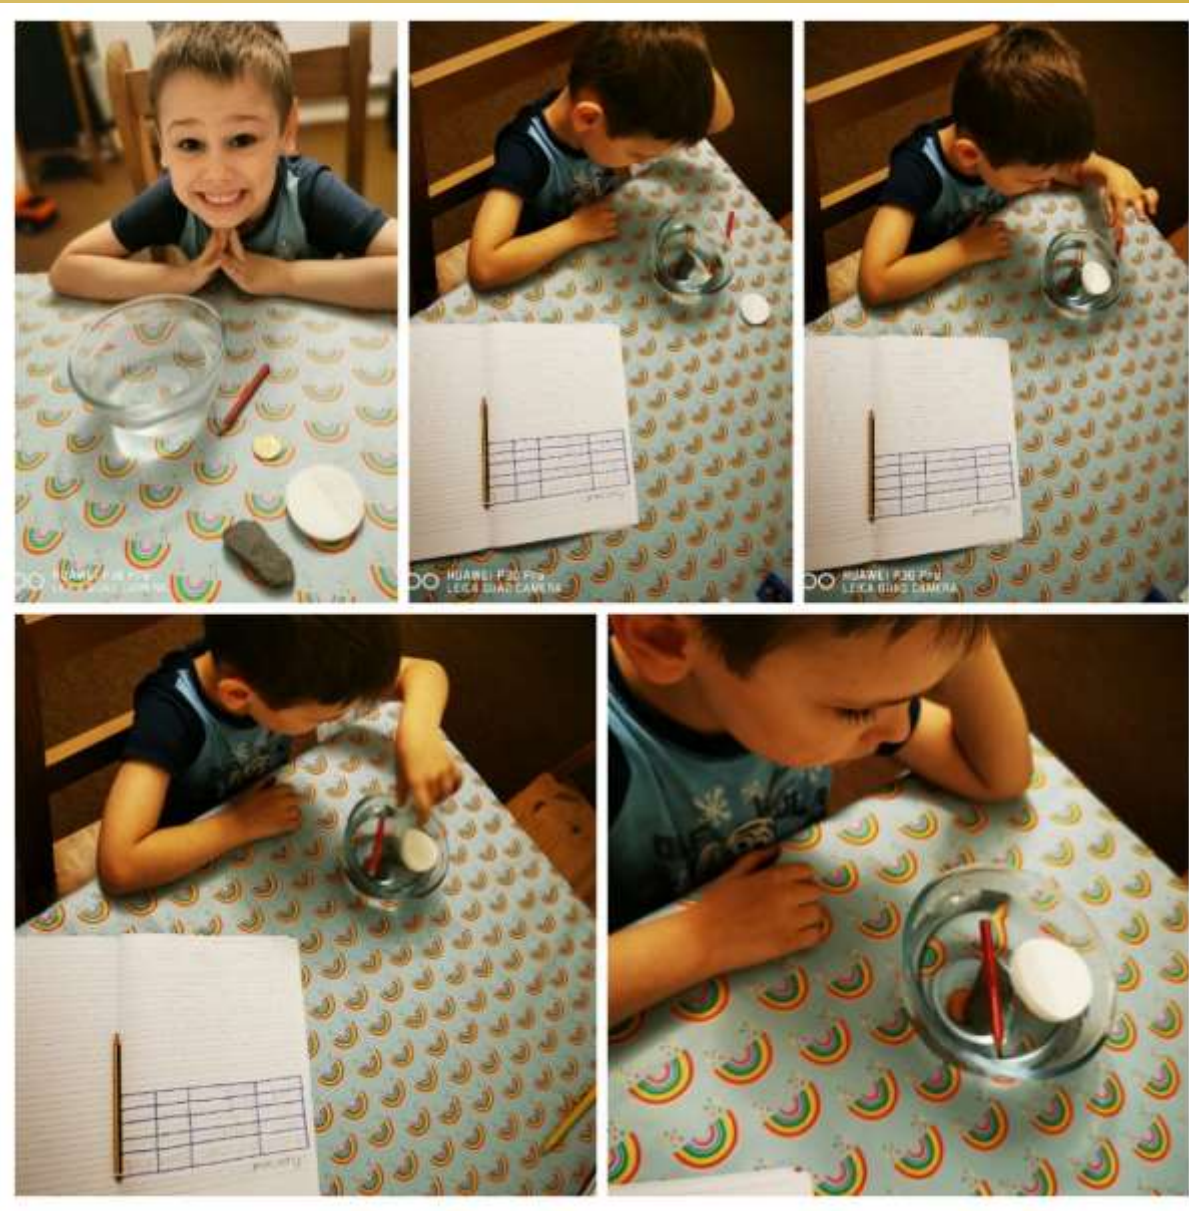

Last week, Year 1 were learning about floating and sinking. They carried out their own experiment to test different materials. Super work Year 1!

## More Year 1 investigations...

Year 1 have had a busy week getting the forest school ready. They went on a treasure hunt to find all the materials and then worked together as a team to put everything together. Great teamwork Year 1.

Luke from Year 5, enjoying getting some exercise on his bike! Great to see you wearing your helmet to keep you safe too Luke!

Erika from Year 6 has been keeping fit on her roller blades. She is much braver than I am!

Last week and this week, year 6 have been out in the new Forest School area having a go at setting it up to be a useable space and trying to make some shelters. Our first attempt was not great and we only managed to make one small shelter.

Oh dear...

Our second attempt however went much better and we made a few sturdy shelters, one with a carpet, foot stool, lounge area and TV (not sure how much live action they would get from it mind you).

We all had a great time getting some fresh air and using our team building skills.

The Year 2 children in school have been learning about birds this week. Some fat balls and seeds have landed outside our classroom window and we've had our first visitors! The children have also been watching birds outside and practised their drawing skills.

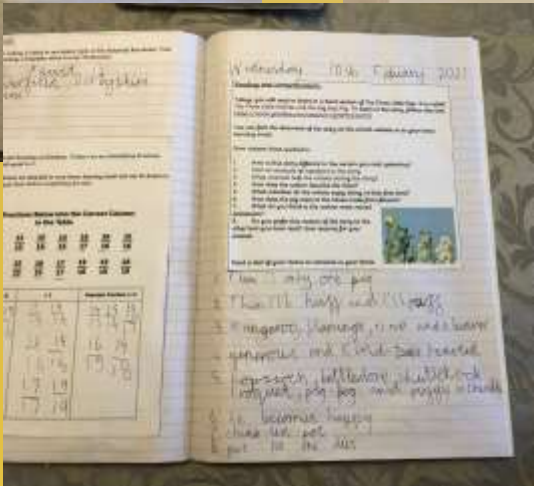

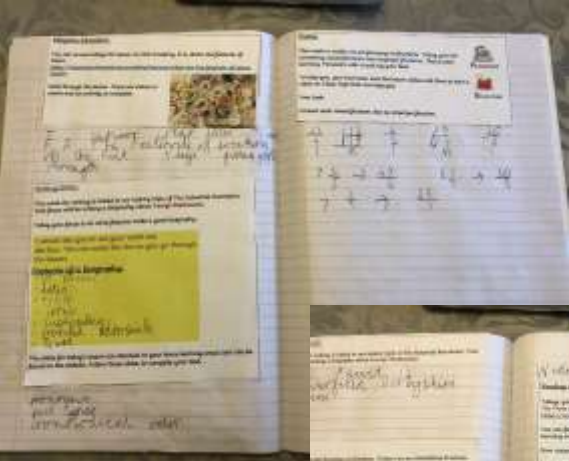

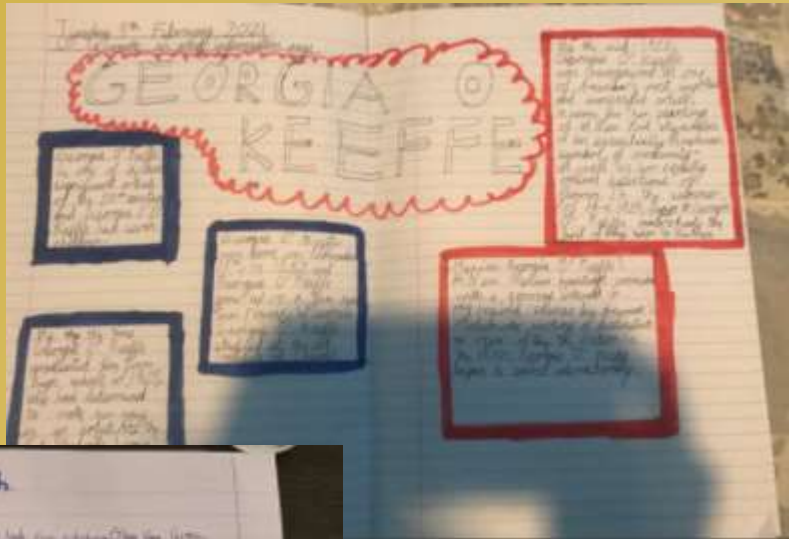

Alex from Y5 and Maya from Y1 have had a very busy time at home. Their mum told us ...  
'This morning we went to have some fun in the snow.

Alex joined in with his sister yoga, hot potato game about weather and choose and learn (just play time) as we have no electronics 9-15, I love it when they just play together and not staring at screens...

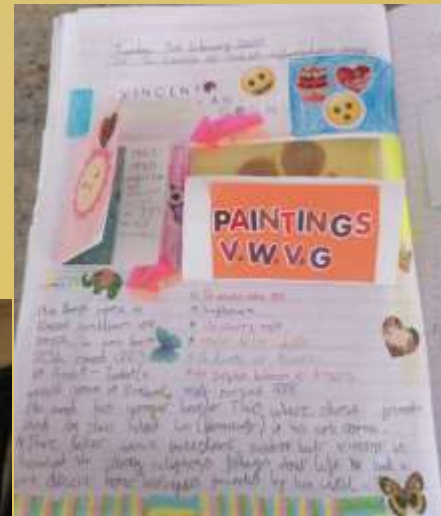

Alex did some 11+ , today was English so bit challenging.' Glad to see you are working hard and playing hard!

This week, the children from Year 6 who are at home have been given an art project to complete. Their first job was to research their chosen artist and create an information page about them. Look at some of the amazing research that has been taking place. Well done Year 6

Andy Goldsworthy rock sculpture

Goldsworthy raised his artistic process as a collaboration with nature

The process of his work required lots of patience and flexibility, when he was sculpting with ice, for example, he would wait till the temperature was low enough.

Jess from Year 5 has been making sure she stays fit, by exercising during lockdown. Joe Wicks better watch out!
